Our capabilities are small to medium size 3-5 axis machine parts.  
(Aluminum, Stainless, Titanium, Alloy Steel, Phenolic and Plastics)  
We have the capability to brake form small to medium size sheet metal parts.

We do some minor assembly of nut plates, brackets, hinge assemblies, and kitting.

Since 2007, we have done work directly for the DOD and Cessna, indirect work for Boeing, Goodrich, Beechcraft, Honda Jet, Hamilton Sundstrand, Gulfstream, and Learjet.
